[REDACTED] I talked to [REDACTED] about the performance of his son as a courier in the Office of Logistics. In order to alleviate the situation in the interest of all concerned, I took the initiative and told [REDACTED] I was going to transfer [REDACTED] to another area in the Office of Logistics. I arranged this with George Meloon, who will talk to [REDACTED] in the next several days, inform him of the transfer, and warn him on tardiness and the need to conform to the office schedule of operations. I then called [REDACTED] and advised him what we are going to do and also that [REDACTED] within-grade step increase due on 13 February would be deferred for a few months pending proper performance on the part of [REDACTED]. [REDACTED] was most grateful for this action in resolving this problem.
